

Generation Planned Outage Coordination TOP-003-0

Pursuant to NERC Standard TOP-003-0, Requirement R1.1, IPPs and Cogens should use this form to notify SCE&G Transmission Controllers of scheduled generator outages.

Information should be faxed or emailed to:

SCE&G System Control

Fax: (803) 217-8679

Email: sdispatchers@scana.com

Phone: (803) 217-9265

Requirements defined by NERC as of 08/29/07

R1. Generator Operators and Transmission Operators shall provide planned outage information.

R1.1. Each Generator Operator shall provide outage information daily to its Transmission Operator for scheduled generator outages planned for the next day (any foreseen outage of a generator greater than 50 MW). The Transmission Operator shall establish the outage reporting requirements.

R1.3. Such information shall be available by 1200 Central Standard Time for the Eastern Interconnection and 1200 Pacific Standard Time for the Western Interconnection.

Although the requirement to notify SCE&G by 12 noon the day before, SCE&G requests persons to notify SCE&G as soon as possible.

Information to be provided by the Generator:

Generator Name _____

Number of units off line during outage and total MW _____

Begin date and time of outage: _____

End Date and Time of Outage(if known, please indicate) _____

Contact Name _____

Contact Number _____

Contact Email _____
