

Stephen A. Byrne

*Chief Operating Officer and President, Generation and Transmission
South Carolina Electric & Gas Company
Senior Vice President, SCANA*

Stephen Byrne, 51, joined SCANA in 1995.

As president of SCE&G Generation and chief operating officer of SCE&G, Byrne will be responsible for a diversified fleet of generation, including SCE&G's plans to construct two new nuclear plants, as well as demand side management, alternative energy strategies, system control and transmission planning and compliance.

Byrne has 27 years of experience in the nuclear industry, and has been with SCE&G since 1995, most recently serving as executive vice president for generation and transmission, as well as COO. He also previously served as the company's chief nuclear officer.

He is the current president of the Carolinas Virginia Nuclear Power Associates, Inc. Decommissioning Project and chairman of the nuclear industry's New Plant Oversight Committee. In addition, he serves on the South Carolina Governor's Nuclear Advisory Council, University of South Carolina Nuclear Engineering Advisory Board, Westinghouse Quality Fuels Council, Savannah River National Lab Advisory Board and the United Way of the Midlands and Community Impact Council.

A native of West Hartlepool, England, Byrne has a Bachelors of Science Degree in engineering from Wayne State University.
