2015 GAAP-Adjusted Weather-Normalized EPS Target & Long-Term Growth Rate - Reconciliation to GAAP

- The 2015 estimated GAAP EPS range is \$5.00 to \$5.20, and the 2015 internal GAAP EPS target is \$5.10. The difference between each of these amounts and the 2015 estimated GAAP-adjusted weather-normalized EPS range and 2015 internal GAAP-adjusted weather-normalized EPS target is that the GAAP-adjusted amounts exclude the estimated gains on subsidiary sales of \$1.41 per share and assumes normal weather with respect to the electric business.
- Based on 2014 GAAP EPS of \$3.79, the average annual EPS growth rate target is 1% to 5% over the next 3 to 5 years.
